

Termite and Pest Control

INSTRUCTION SHEET FOR: GERMAN ROACHES

ALL PESTICIDES WILL BE USED IN ACCORDANCE WITH MANUFACTURER'S LABEL

TO WHOM IT MAY CONCERN:

In order to give you the best possible service, with the least inconvenience to you, we would appreciate your cooperation with following these instructions before and after our technician treats your premises. In the event that everything is not ready when the technician arrives, the appointment will have to be rescheduled, at an additional charge.

BEFORE

1. Remove all items from kitchen cupboards (upper & lower), dishes, cookware, glassware, foodstuff, canned goods, etc... Place all items on a table and cover them with a sheet. Take drawers out and turn them upside down on a counter top.
2. All kitchen appliances and any other items left on the kitchen floor must be pulled at least 3 feet away from the wall.
3. **Kitchen counters, cabinets, stove, oven and range hood must be thoroughly cleaned with soap & water (No harsh chemicals).** It is important that the area be free from grease and food particles.
4. All cleaning of cupboards, walls and shelves should be done **BEFORE treatment occurs.**
5. Empty medicine cabinets, counter tops and all bathroom cabinets (towels, tissue, toiletries, etc...)
6. D&S Termite & Pest Control recommends that all persons vacate the structure for at least 4 hours and until treated areas have dried. Persons with ailing health, children under 2 years old and pregnant women must vacate for 24 hours and/or follow their doctor's advice.
7. Remove all pets for at least a four (4) hour period. Birds must be removed for twenty-four (24) hours.
8. Aquariums should be sealed off with plastic wrapping, and the filter turned off for a four (4) hour period.

AFTER

1. Upon returning to the premises, open windows for a short period of time. Thoroughly ventilating treated areas following the application can reduce potential odors.
2. Turn aquarium filter back on.
3. Wipe down countertops. **DO NOT** wipe down inside of cabinets.
4. You may now return everything to the cabinets and drawers.

NOTICE

State law requires that you be given the following information: CAUTION-PESTICIDES ARE TOXIC CHEMICALS. Structural pest control companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the State finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risks depends on the degree of exposure, so exposure should be minimized.

If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, contact your physician or poison control center and D&S Termite & Pest Control immediately.

For further information, contact the following: D&S Termite & Pest Control (619) 462-5577; for Health Questions – the County Health Department (619) 338-2284 or (858) 565-5255; for Application Information – the County Agriculture Commissioner (858) 694-8980 and for Regulatory Information – the Structural Pest Control Board (800) 737-8188.
